

CC KITS. GLASGOW CORONATION.

We would like to express our appreciation to 'The Scottish Tramway Museum Society' for supplying the official drawings and photographs of car 1282 in its original form. We would also like to thank Mr Brian Duke of Camberley for his assistance in producing this kit.

It is recommended that the modeller obtains photographs of the exact car to be modelled. The booklet 'The Glasgow Coronation' by Ian M. Coonie is available from the Light Railway Transport League, 3 Kings Orchard, London. S.E.9 5TJ. It is well worth obtaining for additional information.

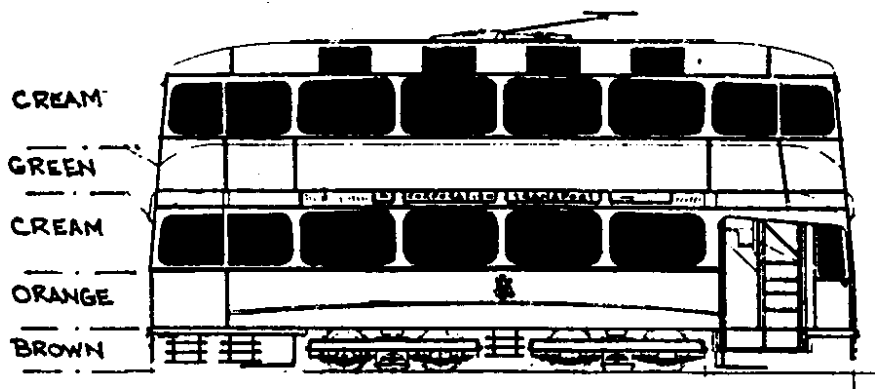

Assemble with a quick drying epoxy resin glue. Paint as many of the parts before assembly and add glazing.

Suggested Assembly Sequence.

1. Carefully glue male press studs (13) to motor mounts and female studs (12) into position in bolsters (11).
2. Glue bulkheads (4) to car sides (1) making sure that the assembly is square.
3. Glue platforms (4) to car sides and bulkheads.
4. Assemble both halves of staircases (5 & 6). When set glue into position on platforms. Add resistance boxes (16).
5. Glue drivers compartments (7) into position, add controllers (9) and brake standards (10) to platforms.
6. Glue car ends (2) to body assembly.
7. Glue doors (27) to car sides.
8. Carefully cut plastic upper floor to shape, when satisfied glue into position.
9. Cut seat strip into 16 lengths and glue to upper floor.
10. Glue stairwell partitions (24 & 25) into place.
11. Glue single seats (26) into position.
12. Glue roof (21) to body assembly.
13. Glue steps (8) lifeguards (17,18 & 19) and lifetrays (20) to underside of platforms.
14. Slip bolsters (11) into place between body sides.
15. Carefully glue trucksides (15) to traction units (14) making sure that they do not foul wheels or track.
16. Clip traction units into position and track test.
17. Glue bow collector (22) and collector springs (23) to roof.

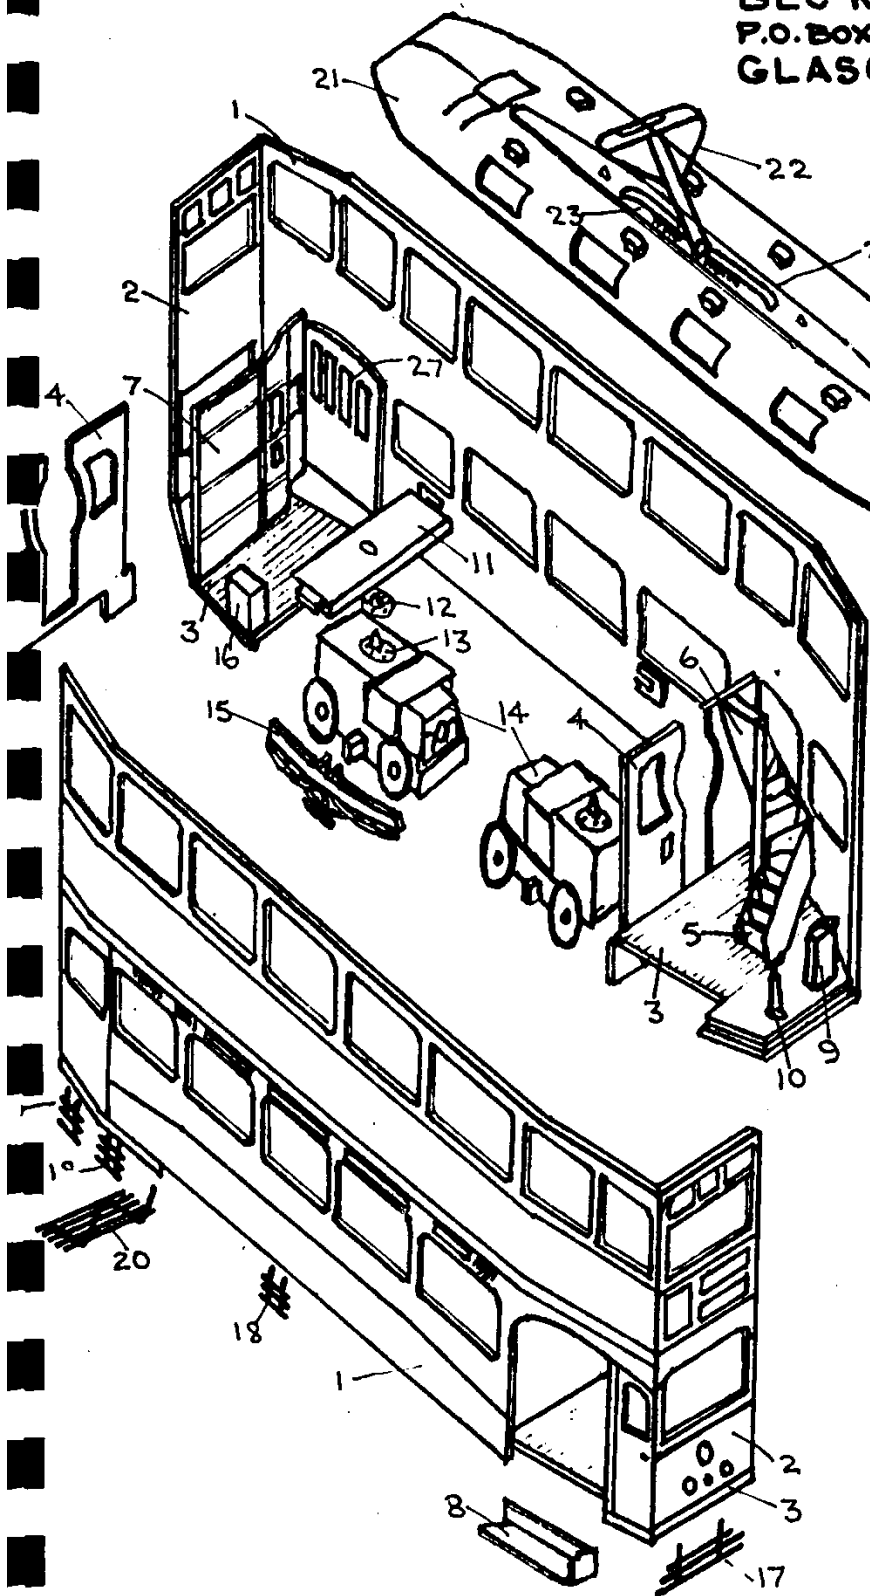

Finally complete painting as necessary and add transfers.

Every care has been taken in checking and packing this kit, should any part be faulty, please return part only for free replacement.
